REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-6, 8 and 12-14 have been indicated for allowance because the prior art fails to teach the entire combination of an image forming apparatus includes a controller that controls the medium-width detector to detect the width of the page of print medium only after a printing operation has been activated and after a predetermined condition has been detected.

Claims 9, 10 and 15-18 have been indicated for allowance because the prior art fails to teach the entire combination of an image forming apparatus includes a controller that controls the medium-width detector to detect the width of the page of print medium upon detection of a switching of a medium feeding mode.

Claim 19 have been indicated for allowance because the prior art fails to teach the entire combination of an image forming apparatus includes a controller that controls the medium-width detector to detect the width of the page of print medium when a printing operation has been activated for a first time after a changing of control of printing operation is detected.

Claim 20 have been indicated for allowance because the prior art fails to teach the entire combination of an image forming apparatus includes a cassette-selection detecting section that detects when the cassette selecting section switches from a first one of the plurality of cassettes to a second one of the plurality of cassettes and a controller controls the medium-width detector to detect the width of a first page of print medium supplied from the second one of the plurality of cassettes in accordance with a detection result of the cassette-selection detecting section.
